

## **IB Student Feature: Meet Kyle**

Posted March 13, 2019

Kyle Medina is one of our incredible IBDP students. He embodies daily the IB Learner Profile Traits of balanced, thinker and principled. Kyle's teachers have been impressed with his strong understanding of course material and his consistency in work completion and class participation. Outside of the IBDP, Kyle is a competitive bowler who on several occasions has reached a perfect game score of 300. Kyle is combining his love of bowling and learning as he begins his Extended Essay. Kyle is currently doing research in the realm of science as he creates a research question relating to science and bowling. The IB Community is excited to see his research develop and to see his final paper.
